Fachausschuss Normung

Bericht Frühjahrssitzung 2013, Berlin

G. Reiners

- **DIN NA 062-08-16 AA**
(Spiegelausschuss **ISO/TC 201** Surface Chemical analysis)
- **DIN NA 062-08-17 AA**
(Spiegelausschuss **ISO/TC 229** Nanotechnologies + **CEN/TC 352** Nanotechnologies)
- **NA 062-08-18**
(Spiegelausschuss **ISO/TC 202** Microbeam Analysis)
- **DIN NA 062-01-64** Kohlenstoffschichten
(Spiegelausschuss **ISO/TC 107**)
- **DIN NA 062-01-72** „Chemische und elektrochemische Überzüge“
(Spiegelgremium zu **ISO/TC 107**)
- **DIN NA 027-01-03** Dünne Schichten für die Optik
(Spiegelgremium zu **ISO/TC 172/SC 3/WG 2** Optical coatings)
- **DIN NA 062-01-41** „Härteprüfung“
(Spiegelgremium zu **ISO/TC 164/SC3**)
- **VAMAS** (Versailles Project on Advanced Materials and Standards)
TWA 2 Surface Chemical analysis
- **VDI/VDE/GMA FA 3.41/3.43**
Geometrische Messgrößen / Normale und Kalibrierung

NA 062-08-17 Nanotechnologien, JWG1 Terminology - Nomenclature

ISO/WD TS 80004-11 Nanotechnologies - Vocabulary - Part 11: Nanolayer, nanocoating, nanofilm, and related terms

wird bearbeitet in enger Abstimmung mit

- ISO/TC 35 Paints & Varnishes
- ISO/TC 256 Pigments, dyestuffs and extenders
- ISO/TC 201 Surface Chemical Analysis
- ISO/TC 202 Microbeam analysis

ISO TR 18196

**Nanotechnologies — Measurement method matrix for
manufactured nano-objects**

- **JWG2 recommends to establish a TC Task Group on Nano-Biotechnology under the leadership of Tae Lee (KATS).**

Photocatalytic activity

- Graphene
 - TR: measurement methods for graphene characterisation to be submitted (Korea, USA)
 - TS on graphene product spec out for ballot in IEC TC113 WG3. IEC invitation to make it a joint PG with JWG2 – WG4
 - NWIP on graphene terminology in JWG1 discussed
- PG 10 Surface characterization of gold nanoparticles for nanomaterial specific toxicity screening: FT-IR method (TS)
- PG 14 Guidance on the voluntary labeling of consumer products (TS)
Dr. Jean-Marc Aublant – anticipated ballot in 2013

Vielen Dank für Ihre Aufmerksamkeit
